The Canal.

We publish to-day a communication calling on the subscribers to the fund for keeping in repair the lower section of the Canal, to come forward and pay up their assessments. The Canal is a great benefit to the city, and the time is close at hand when its utility will be appreciated. It is important, therefore, that the necessary funds to keep it in navigable order, be paid in without delay.

Y., doorkeeper, and either Mr. Boyntown, of Mo., Mr. Schouler, of Mass., or Mr. Lucas, Postmaster. So says a dispatch from Washington of the 30th of January. A FALSE REPORT,-Some malicious per-

son has recently circulated the report that Lyons is about to fail in business; but we can assure our readers that the report is entirely unfounded. We presume the impression gained credence from the fact that Lyons has recently been selling clothing at such very low rates that many persons supposed that he certainly must be losing money. But the secret of Lyons being able to sell goods so low, lies in the fact that he buys goods principally for each at very low figures, sells goods at low rates in order to increase his trade, and has recently determined to close out the residue of his stock at simply a sufficient advance to pay for the handling of them. He has still some excellent over-coats and neat business suits which he is selling at extremely low figures.

Son, Kentucky, on such terms as will induce any one with a small capital to make a small fortune in the investment. All the machinery in good repair and working order, and in fact everything complete to go to but inose; with a sufficient amount of custom work to keep the mill running night and day; but with a few handling of them. He has still some excellent over-coats and neat business suits which he is selling at extremely low figures. feb-1

The Detroit Free Press says that a new disease, which a short time since created quite a panic in Paris, on account of its singular nature and extreme fatality, has made its appearance in that vicinity and has been fatal in each instance. The malady arises from the effects of a cold, which opetion in the trachea and bronchial tubes and vesicles belonging to and connecting with the lungs, thereby preventing. the lungs, thereby preventing all access by the inhaled air to the blood. It is somewhat similar to the croup, with the exception that there is no cough.

The Charleston (S. C.) Courier says, in reply to the letters asking if it was safe for Northerners to come there on business, that any gentleman and honest tradesman dealer or merchant, openly and fairly pursuing a legitimate business, will be at any time safe in that State, and, it believes galleries are as crowded as yesterday, but throughout the South. What amount of success may attend the tour is, of course, a different question.

Ayer's Ague Cure. OR THE SPEEDY CURE OF INTERMITTENT FEVER, OR BEVOR AND AGUS, RESMITTENT FEVER, CHYS., PERCOPCAL HEADACHE, OR BILLIOUS HEADACHE, AND BILLIOUS FEVERS, on Billious Headache, and Billious Fevens, Indian for the whole class of discusses on containation in michiant demandment, caused by the malanta of miasmatic countries.

No one remedy is londer called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such a remedy we are now combled to offer, with a perfect certainty that it will evadicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must

run in violent attacks of this baleful distemper.—
This "Cura" expels the misumatic poison of Fever and Ague from the system and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in billious districts where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. It is hoped that this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other discovered for the speedy and certain cure of finermittents is, that it contains no Quinne or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution.—Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of

Fever and Agge is not alone the consequence of Fever and Ague is not alone the consequence of the missmatic poison. A great variety of disor-ders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blind-Lets, Toothache, Earache, Catarrit, Asthma, Palpi, tation Painful Afaction of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and berange-ment of the Stomach, all of which, when originatment of the Stomach, all of which, when originating in this cause, put on the intermittent type, or
become periodical. The "Cure" expels the poison
from the blood, and consequently cures them all
alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infector, font will
be excreted from the system, and cannot secumilate in efficient constitution. Into in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this renedy affords.
